

We organize the conference since 1975, every two years.

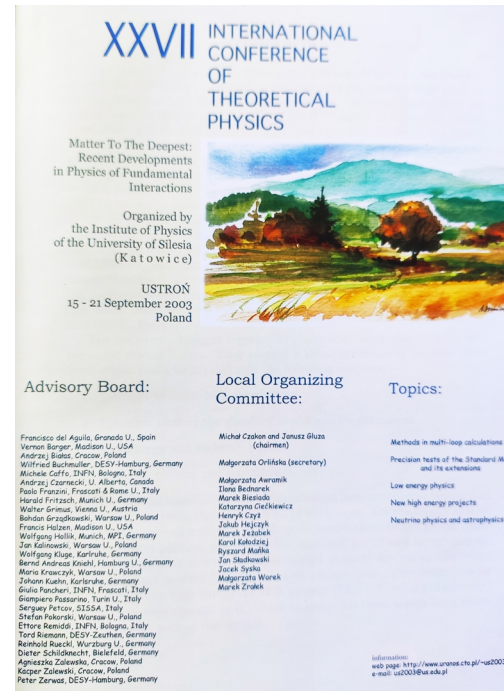

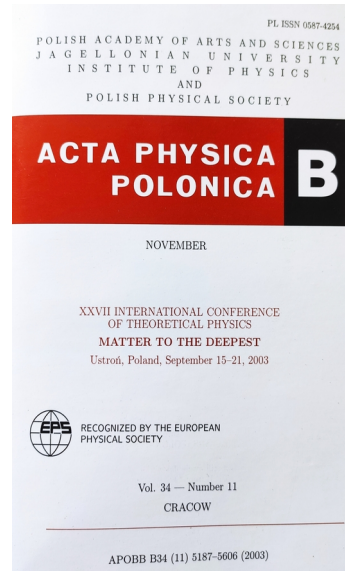

The first school prepared by Marek Zrałek (certainly more complicated to organize: visas, transport, communication, food,...). For many years it was called "School of theoretical physics"

**XLIV conference in series. One break in 1981 (martial law):**

Since 2003, we changed to `Matter to the deepest`

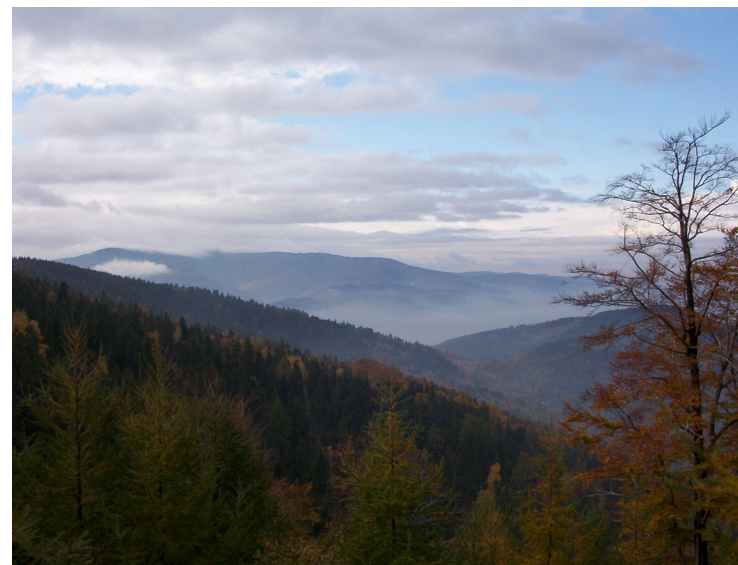

We were in different places:

SZCZYRK

USTRON, PODLESICE

CHORZÓW, 2019

SZ, CZ, Ń, Ó,

Ż

We have developed our own poster in 2019.

FCC – circumference 90-100 km (e+e-, pp, ...)

LHC – circumference 27 km (pp)

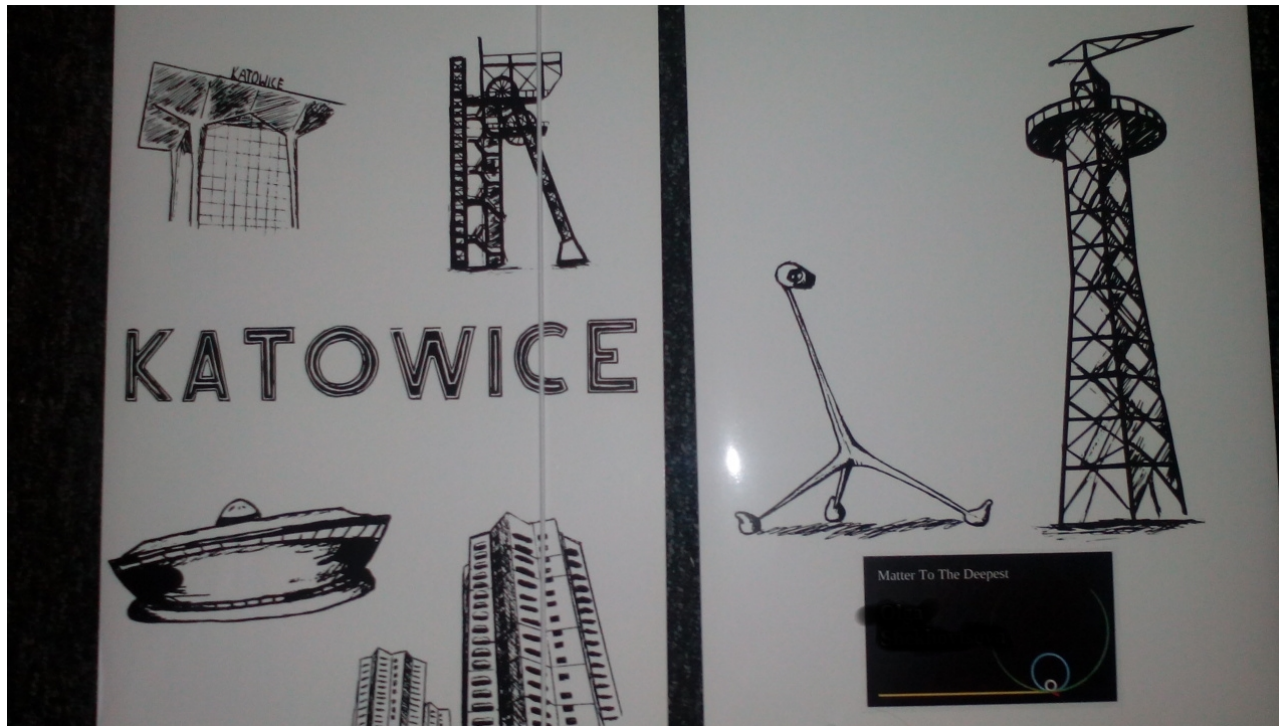

Tevatron – circumference 6.2 km (p-anti p)

SLAC (SLC, Stanford Linear Collider) - 3.2 km

CLIC – 11-50 km

ILC – 30-50 km

ENJOY your stay! (2019)

**2021: ENJOY your stay and stay well (wherever you are).**

To encourage you to visit us in two years for MTTD2023, and present your scientific results, taking part in discussions, we prepared media and slideshow photo materials about the Silesia region which we will present during coffee breaks.

Lets us start.

**During the public talk, a "Raise hand" button will be available and a chairman/technical assistant can unmute persons for a discussion. The chat will be also active.**
