

Matter To The Deepest 2021

Thursday, 16 September 2021

Thursday II (14:00 - 16:00)

-Conveners: Sven-Olaf Moch

time	[id] title	presenter
14:00	[13] Sensitivity of future e+e- colliders to processes of dark matter production with light mediator exchange	Prof. ŻARNECKI, Aleksander Filip
14:30	[14] From causal representations of multiloop scattering amplitudes to quantum computing in the loop-tree duality	RAMÍREZ URIBE, Norma Selomit
15:00	[15] Renormalization of non-singlet quark operator matrix elements for off-forward hard scattering	Mr VAN THURENHOUT, Sam
15:30	[16] Novel approach to measure quark and gluon jets at the LHC	SIODMOK, Andrzej
